The Order of the Sinister Moon: A Brief Outline

Analysis of our Insignia

The skeletal hand reaching towards the sigil of the O9A signifies both desire for Sinister Influence and the influx of the death current. It also represents San La Muerte or the Lord of Death. His days are Monday and Friday; his number is 13. Sacraments to him are brown liquor particularly whiskey, coke and rum, coca leaves and cocaine, marijuana, raw or cooked pork, and tobacco particularly cigars. In some traditions he is known as Cain or the original murderer. In the Hindu tradition he would be recognized as Yamaraja and in Thai Buddhism as Payayom. The sigil of the O9A itself has it's own meaning in the Sinister Tradition but furthermore here means we recognize the O9A as comrades, the influence of the O9A on our person and ideas, and that we keep the Sinister Tradition alive as well as promote and align with the Aeonic goals of the O9A. The new moon represents Satan's mistress Lilith who is the Goddess of Night, mother of all demons and succubi, mistress of nightmares, and is associated with the New Moon. In the Sapphic tradition it represents the Dark Vampress Goddess Baphomet. The blackness itself represents the chaos dragon Tiamat, the acausal, non-being and chaos.

Rituals & Practices

Ceremonial rituals are taken from the Black Book of Satan I,II, and III. Hermetic rituals from Naos. However, there are certain rituals which are added or modified for both ceremonial magick and hermetic magick. As well as for internal magick. For example the physical ordeals are different. Ultimately cultivating in a 100 mile run in under 24 hours. Everything else is outlined in *Secret Tasks of the Sinister Moon.* Which is to be undertaken any and all level from neophyte through. Additionally elements of Vampirism, Hinduism/Eastern Religions, meditation, Lucid Dreaming, death worship, martial training, and tantra are added. As well as MONARCH programming. We do thusly state we

wholeheartedly and fully embrace the concept of culling and terror. We shed no tears for the blood which is split in the name of our prince Satan.

Cosmology

The acausal realm or universe we view as pure chaos. Non-euclidean, with infinite eternal time dimension. In contrast to the causal with it's 1-dimensional time and 3-dimensional space. This Myattian influence is axiomatic and so is the theory of the acausal.

We believe that hidden to us is our true self which is the spiritual spark of Satan/Lucifer. The black flames of dark gnosis which dwells within our fleshy shell. By following the tasks we've outlined prior the alchemical change process begins and there is shifting where upon after one traverses the abyss they will be dominated by the acausal instead of the causal. Emerging as a God in flesh body. There is first recognition and living this dark side then there is separation and finally union ultimately transcending both.

Meditation especially void meditation and the four fold breathe technique is employed. As is certain other meditative practices to help this process. As well as visiting the cemetery grounds and scrying with the black mirror. And the invocations of Dark Gods and energies. And of course via chanting the Diabolus and reciting the Satanic Our Father.

Structure

The Order of the Sinister Moon is led by the Blutfuhrer. Other front organizations or cells/nexions of it may exist however the original nexion is the one operated and represented by my person Dark Gnosis. Some element of fanatic devotion and loyalty is required. As well as authority exerted in guidance. As who wants to be led astray by a do-nothing idiot? Misdirection and misuse of revolutionary capital is a carnal sin. There is no revoke of membership. There are no limits placed on the individual aspirant.

Ranks are as follows:

Neonate (Neophyte)

Initiate

Adeptus Minor (External Adept)

Adeptus Major (Internal Adept)

Master

Grandmaster

Blutfuhrer is an appointment of leadership. The same as a temple priest or master. Assuming the role of leader and head authority. As well as outer representative.

Political Ideology

We espouse totalitarian fascist dictatorship where the strong, aristocratic Satanic elite rule the weakling. We do promote and condone National Socialism and Holocaust Denial. We do promote and condone hardcore hate, heresy and ultra-violence.
